Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

Despite the City of Daly City's best effort to date, the jurisdiction has been unable to attain the 50% goal. It is possible that Daly City's struggles are related to the community's extremely low per-person, per day disposal rate (less than 2 pounds per person). The disposal rate was low at the time AB 939 was chaptered. It is extremely difficult to divert what you don't have. Daly City has a low-income population, with the greatest concentration of foreign-born residents in the country. Language barriers and cultural differences may be a contributing factor to the City's modest diversion rate. The City will attempt to increase its outreach efforts, specifically targeting non-English speaking residents of the community.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

In 1996, Daly City's reported diversion rate was -7%. Since that time, the City's diversion rate has improved to 38% in 2001-2002 - a net improvement of 45%. However, Daly City is still short of the elusive 50% diversion goal. It is hoped that continuing existing programs, coupled with a multi-lingual public education campaign will help enough to reach the 50% goal.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

Daly City has implemented each of the major programs in its SRRE - including curbside collection of mixed paper, rigid mix (bottles - glass and plastic - as well as cans), and green waste. BFI, the franchised hauler for Daly City, has stepped up efforts to increase recycling in the commercial/business sector of the City, along with multi-family dwelling units. Apartment dwellers seem to have difficulty participating in established recycling programs. There are over 12,000 rental units in Daly City.

- 4. Provide any additional relevant information that supports the request.**

Daly City has come a long way in the past 8 years, improving from a -7 diversion rate to 38% in 2002. The barriers preventing the City from reaching the 50% goal are real, but we are slowly making progress despite the circumstances.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.
